## Bossier Parish Community College Athletic Department

## Federal Regulations Compliance Information

Part I. Student Right-to-Know Act

This information sheet is provided by the Bossier Parish Community College Athletic Department in compliance with the Federal Student Right-to-Know and Campus Security Act. A complete report from all colleges and universities including Bossier Parish Community College is available at http://nces.ed.gov/ipeds/cool/.

Overview:

The SRK requires institutions to disclose enrollment and graduation rates to prospective student/athletes, their parents, and their high school coach and guidance counselor at the time an offer of athletically-related aid is made.

The graduation rates report provides information about how groups of students at the College identified at the top of the form: (1) all students who were enrolled in full-time degree seeking program during the cohort year and (2) the student/athletes who were degree seeking and received athletic aid from BPCC. NOTE: Athletic aid is a grant, scholarship, tuition waiver, or other assistance from the College that is awarded on the basis of a student's athletic ability. The completer rate is determined at the elapsed of 150% of normal time needed to complete a degree. Example: A two-year degree is allowed three years. Therefore, a graduation rate (percent) is based on a comparison of the number of students who entered the College as first time degree seeking and the number of those same students who graduated within three years or 150% of the time allowed.
