The Louisiana Transfer Associate Degree consists of 39 hours of General Education (GenEd) and 21 hours of additional coursework. Students who enter a four-year public university with this degree will have met the institution's general education requirements and will be granted upper division (junior status). This guarantee applies to those who successfully complete the degree with the required grade of "C" or better in each course.

Students pursuing associate degrees, academic certificates, or technical competency areas at BPCC must declare their intent to do so. Curricular requirements become effective at the date of the declaration of the academic major and do not date from the point of original enrollment in the College. If the student resigns or does not enroll for one semester, the student would have to meet the requirements of a new curriculum.

The student is responsible with all the requirements of the degree program and should consult with his/her academic advisor when necessary. Each student assumes the responsibility for scheduling courses which are applicable to degrees and for taking courses in proper sequence to ensure the orderly progression of work.
