**** Fine Arts Appreciation elective* must be chosen from ART 201, 202, or 206; MUSC 120; TLMC 240; THTR 101 or 103

New courses included in this program constitute 30 hours of the 60 proposed hours.

Students must demonstrate competency in computer literacy by successfully completing a challenge examination or through successful completion of a college level computer science course (CIS 105).

Students must also demonstrate competency in oral communication by successfully completing a challenge examination or through successful completion of a college level public speaking course (SPCH 110).

Students must meet prerequisites before taking any given course. Students must earn a minimum grade of C in each course and have a minimum 2.0 GPA to earn a credential.

All BPCC students are expected to be familiar with College policies, requirements, procedures and regulations. Students must assume final responsibility for being acquainted with College policies. In no case will a regulation be waived or an exception be granted because a student pleads ignorance of the regulation.

Students pursuing associate degrees, academic certificates, or technical competency areas at BPCC must declare their intent to do so. Curricular requirements become effective at the date of the declaration of the academic major and do not date from the point of original enrollment in the College. If the student resigns or does not enroll for one semester, the student would have to meet the requirements of a new curriculum.

The student is responsible with all the requirements of the degree program and should consult with his/her academic advisor when necessary. Each student assumes the responsibility for scheduling courses which are applicable to degrees and for taking courses in proper sequence to ensure the orderly progression of work.
