Additional Requirements for the Associate of Science in Teaching Degree:

Students must submit an application and complete the interview process in order to be considered for entry into the program.

Students must meet prerequisites before taking any given course.

*In order to enroll in the TEAC classes, students must be officially admitted into the program and have completed a sexual offender and FBI Criminal History background check.

CIS competency is met through the technology module in the TEAC 201 course.

SPCH competence is met through the public speaking activities in the TEAC 201 and 203 courses.

Teaching majors must pass PRAXIS (PPST) and the PRAXIS II (0014). A core of 22 on the ACT may be substituted for PRAXIS I.

Teaching majors must successfully complete an electronic portfolio and exit interview in order to be recommended for graduation.

All BPCC students are expected to be familiar with College policies, requirements, procedures and regulations. Students must assume final responsibility for being acquainted with College policies. In no case will a regulation be waived or an exception be granted because a student pleads ignorance of the regulation.

Students pursuing associate degrees, academic certificates, or technical competency areas at BPCC must declare their intent to do so. Curricular requirements become effective at the date of the declaration of the academic major and do not date from the point of original enrollment in the College. If the student resigns or does not enroll for one semester, the student would have to meet the requirements of a new curriculum.

The student is responsible with all the requirements of the degree program and should consult with his/her academic advisor when necessary. Each student assumes the responsibility for scheduling courses which are applicable to degrees and for taking courses in proper sequence to ensure the orderly progression of work.
