

## SoftChalk

[Softchalk Lesson Builder](#) is a powerful web editor that lets you easily create lessons and activities electronically. Designed for teachers and content-experts that don't have time to learn complex software, LessonBuilder is simple, yet powerful, with only the features you need to create exciting, interactive, and content for your online course.

- **Create** interactive web pages for your e-learning course with SoftChalk LessonBuilder. It's easy, quick, and your lessons will look like a professional designer created them.
- **Engage** your students with lessons that include pop-up text annotations, self-assessment quizzes, and interactive learning games.
- **Package** your lessons for delivery via CD-ROM, Intranet, Internet, or integrate with your LMS (Learning Management System).

### Getting the Software:

To get the software on your BPC computer, you must submit a "Request to Install Softchalk" work request to Computer Services. BPC has purchased a Campus Wide license. However, this software license does not include additional instructor copies at home.

### Instructional Information:

BPC offers training through the Department of Educational Technology. ([Click here for a training schedule](#)) The hands-on training is 1 hour in length and covers the following topics:

- You will learn how to easily create lessons that include pop-up text annotations, matching exercises, crossword puzzles, self-assessment quizzes, and interactive learning games.
- You will also learn how to package and upload your lessons to your Blackboard course.
