

iWebfolio – New Customer Questions

- 1) Please characterize your institution's philosophy/positioning (strengths, emphasis, goals, program focus, etc) in a sentence or two.
- 2) What is the challenge or need that you are addressing with electronic portfolios? Describe why you have chosen an electronic portfolio system to address this challenge or need. If there was a previous, ineffective method that was used please describe briefly?
- 3) Is this a Pilot project? If so, what department(s) will be involved? What, if any, are the plans to roll out to other programs/ departments?
- 4) What types of portfolios will your students be creating and for what purpose?
- 5) Why did you choose Nuventive? Can you generally describe the process that was followed?

QUOTATIONS – Press releases are enriched when they include quotations from administration, staff and/or faculty. Quotes can provide you an opportunity to articulate particular goals or objectives of your institution or a specific department. A quote might also include a description of the challenge to be addressed along with your plan for use of the solution. Please provide a few quotes for us to include.

Thank you for agreeing to join us in the development of a press release outlining your plans and sharing the vision of how iWebfolio and Nuventive will help you achieve them. We will send a draft for your approval and comment prior to release. We are very excited to have you as the newest member of our growing Nuventive iWebfolio User Community. We look forward to working with you!
