New Innovative Learning Logo

Innovative Learning looks forward to opportunities to brand our multimedia and print materials with our new logo. Special thanks to Ali Piccolo for her beautiful work.

Bellwether Award Nomination

BPCC OnDemand™ has been nominated for a Bellwether Award. The Bellwether Awards recognize community colleges for excellence and innovation in instructional programs and services, workforce development, and planning, governance, and finance. The awards are given by the Community of College Futures Assembly, which is sponsored by the University of Florida Institute of Higher Education. The theme of 2019 Bellwether Awards is “Creating a Legacy of Educational Success.”

The BPCC OnDemand™ team is completing a one minute video to accompany our application (due October 19). We are honored to showcase the BPCC OnDemand™ story, strategies, and lessons learned. Finalists will be notified mid-November.

Ribbon Cutting for New Veterans Resource Center

The Ribbon Cutting for the new Veterans Resource Center is 2:00 on Thursday, November 1 on the fourth floor of Building H.

This incredible space will be the new home for the Veteran Services areas from LA Tech and BPCCC. We look forward to the opportunity to expand services for our military-affiliated students.

BPCCC Cyber Range Competition & Cyber Intelligence Workshop

The second BPCCC Cyber Range Competition and Cyber Intelligence Workshop, held on October 12, was made possible by a state Rapid Response Grant. The success of the first cyber range event with industry partners created the momentum that led to the second cyber range event for academic partners. The event provided them with opportunities for fellowship and friendly competition. BPCCC is grateful for the continued partnership with Cybint. The Cybint team did a magnificent job teaching the teachers. Faculty from Bossier Parish Community College, Delta Community College, Louisiana State University in Shreveport, Louisiana Tech University, and Northwestern State University in Natchitoches competed in the cyber range and Roy Zur, Cybint CEO, presented current cyber threats, the Dark Web, cyber intelligence, and other timely cyber topics.

The winners for the Cyber Range Competition were LSUS and LA Tech. Congratulations to these cyber warriors!

Northwood High School Tour

On October 11, Innovative Learning and academic divisions across campus led a tour of twenty-five Northwood High School students. This expanded tour was arranged through Angie White, North Louisiana Economic Partnership (NLEP), as part of Manufacturer's Week. Special thanks to the Division of Communication of Performing Arts, the Division of Science, Nursing, and Allied Health, and the Division of Technology, Engineering, and Mathematics for their leadership of, coordination of, and participation in this tour.

AIM Registration

The spring semester registration for AIM students will occur on BPC's campus. Innovative Learning believes this is an opportunity to better orient AIM students to our campus, resources, services, and the college experience, while providing them with a personalized registration experience.

Registration for AIM students is scheduled for Wednesday, December 10 and 11, from 4-6:30 pm. These students will be registered, given a copy of their schedule, and their book voucher before leaving their special registration event.

AEP Credit Counts Supports Robotics Competition

AEP Credit Counts provided new robotics competition mats that will be used for this first time at the Northwood High School robotics competition in early November. These mats provide the arena on

which the programming scenario will be built. The challenge comes in when the competition scenario is revealed to the robotic teams.
