8. **Articulates a clear and logical rationale** for the evaluation process.
 - States how and why a specific approach to the evaluation process is being used
9. **Selects relevant screening and assessment methods** while considering such factors as the client's priorities, context(s), theories, and evidence-based practice.
 - Identifies conditions and precautions associated with apparent deficits of assigned patients.
 - Selects appropriate component areas to assess, based on the center's practices and the patient's level of apparent deficits and secondary diagnoses and complications
10. **Determines client's occupational profile** and performance through appropriate assessment methods.
 - Reads the client's clinical evaluation prior to initiating evaluation, and verbalizes an understanding of the client's premorbid occupational performance.
11. **Assesses client factors and context(s)** that support or hinder occupational performance.
 - Utilizes correct procedures for assessing individual performance areas
 - Selects appropriate areas for further assessment
12. **Obtains sufficient and necessary information** from relevant resources such as client, families, significant others, service providers, and records prior to and during the evaluation process.
 - Interviews patient or caregiver to obtain relevant information

Shepherd Center
Atlanta, Georgia
Occupational Therapy Student Program
Fieldwork Objectives

- Listens to input from other team members
13. **Administers assessments** in a uniform manner to ensure findings are valid and reliable.
- Maintains objectivity in observing and assessing areas where standardization is not an option
 - Demonstrates an understanding of FIM language and terminology to assess areas of self-care
14. **Adjusts/modifies the assessment procedures** based on client's needs, behaviors, and culture.
- Alters methods of instructing the patient to accommodate limitations in cognition/communication as needed
 - Alters methods of assessing performance areas where medical complications or restrictions exist
15. **Interprets evaluation results** to determine client's occupational performance strengths and challenges
- Determines correct neurological and functional levels based on evaluation results
 - Determines correct FIM levels for self-care levels of functioning
 - Determines correct DRS levels of functioning at admission and discharge (ABI only)
 - Determines correct ASIA levels on the initial assessment
16. **Establishes an accurate and appropriate plan** based on the evaluation results, through integrating multiple factors such as client's priorities, context(s), theories, and evidence-based practice.
- Identifies functional limitations affecting self-care performance
 - Sets long-term goals that are attainable for the patient, based on diagnosis and realistic assessment of the client's strengths and limitations
 - Sets short-term goals in specific, objective, and measurable terms
 - Is able to prioritize interdisciplinary team goals
 - Incorporates patient goals and priorities into the plan of care.
17. **Documents the results of the evaluation** process that demonstrates objective measurement of client's occupational performance.
- Follows correct procedures for documenting evaluations accurately
 - Thoroughly addresses all problem areas
 - Summarizes evaluations clearly and concisely in note
 - Follows correct processes for recording goniometry, manual muscle testing, and ASIA results

Fieldwork Objectives**

IV. INTERVENTION

18. **Articulates a clear and logical rationale** for the intervention process.
 - Completes thorough treatment plans for clients
 - Prioritizes problem areas and addresses foundation skills needed for treatment progressions

19. **Utilizes evidence** from published research and relevant resources to make informed intervention decisions.

20. **Chooses occupations** that motivate and challenge clients.
 - Facilitates self-care activities for eating, grooming, bathing, dressing, and toileting skills
 - Directs patient performance in areas of IADLs as the functional level allows

21. **Selects relevant occupations** to facilitate clients meeting established goals.
 - Demonstrates functional-based interventions for self-care performance components
 - Directs patient performance in areas of IADLs as functional level allows
 - Participates in community re-entry outings
 - Refers and implements group-based participation to address problem areas

22. **Implements intervention plans that are client-centered.**
 - Incorporates patient priorities into established goals
 - Schedules and performs ADLs/AM programs appropriate to the patient's level of participation
 - Considers age level when directing all patient care activities

23. **Implements intervention plans that are occupation-based.**
 - Directs self-care remediation
 - Utilizes purposeful activities during treatment sessions
 - Demonstrates awareness of the patient's various life roles in selecting activities
 - Selects activities that are meaningful and relevant to the patient

24. **Modifies task approach, occupations, and the environment** to maximize client performance.
 - Identifies and addresses underlying problems and prerequisite skills to promote gains in higher-level functional skills

**Shepherd Center
Atlanta, Georgia
Occupational Therapy Student Program
Fieldwork Objectives**

- Grades and modifies treatment activities to provide effective treatment for the patient's current status
 - Selects activities considering patient abilities to promote progress without undue frustration
 - Selects activities by taking into account patient preferences, values, and age
25. **Updates, modifies, or terminates the intervention plan** based upon careful monitoring of the client's status.
- Identifies appropriate goals to address underlying factors that impede functional progress
 - Recognizes changes in the patient's physical, emotional, or cognitive status and adjusts the program to promote optimal progress
26. **Documents client's response** to services in a manner that demonstrates the efficacy of interventions.
- Accurately documents patient FIM scores and outcomes for self-care
 - Updates status of goals; short term goals do not continue for more than two reporting periods if not met
 - Problem-solves with patient and team members to establish goals that are realistic and incorporate the potential discharge situation
 - Uses correct terminology to describe treatments and interventions

V. MANAGEMENT OF OCCUPATIONAL THERAPY SERVICES

27. **Demonstrates through practice or discussion the ability to assign** appropriate responsibilities to the occupational therapy assistant and occupational therapy aide.
- Directs therapy technicians in performing patient care activities within the scope of SC practice standards
28. **Demonstrates through practice or discussion the ability to actively collaborate** with the occupational therapy assistant.
- Verbalizes process for collaboration with the OTA within the specific practice setting
29. **Demonstrates understanding of the costs and funding** related to occupational therapy services at this site.
- Ensures that patient care time is used productively
 - Notifies supervisor of charges for supplies, equipment, and time
 - Verbalizes an understanding of costs for purchasing adaptive equipment or devices, or DME within the practice setting

**Shepherd Center
Atlanta, Georgia
Occupational Therapy Student Program
Fieldwork Objectives**

30. **Accomplishes organizational goals** by establishing priorities, developing strategies, and meeting deadlines.
 - Arrives promptly to scheduled meetings and treatment sessions.
 - Completes assignments by scheduled deadlines
 - Schedules patient treatments to make optimal use of treatment time given current assignment and caseload
